SHAPING THE FUTURE

We at Avita Electrical consistently ensure high quality at every stage of manufacturing in every product division and for this purpose we exercise the greatest possible diligence and attention to detail.

We are constantly seeking innovative improvements and break new barrier with our immensely engrossed R&D which leads to new developed elements of Ascetics and technicality on regular basis.

With our experience, our know-how and our commitment, we do everything we can to meet our customers' expectations which leads to Superior engineering.... these quality and environmental standards represent the foundations upon which our corporate philosophy is based.

Quality, environmental protection and safety to our esteemed customers are anchored in the minds of our employees. Through rigorous process orientation at the administrative and production levels, we fulfill the requirements and expectations of our customers, suppliers, and employees to bring in Safety, progressive engineering & customer satisfaction which is our keys to commitment toward industry

Front mounting - Unique Features

Front loading modules are extremely simple & effective for installation which allows fixing and removal of the inserts without unscrewing the mounting plate.

Screw - Less Tech - Ideally designed screw less technology is used in these beautifully crafted products, which provides inter locking mechanism and snap fitment for fixing the inner base components which carries all current components neatly enclosed in the protective enclosed to the above face plates assuring 100% fool proof and safe assembly of switches, sockets and several other accessories which are generally prone to wear n tear due to usage of pointed screws.
